

HFII Private Pool Parties and Rental Guidelines

Thank you for scheduling a party at the HFII facility. The pool is available for private parties after 7:00pm Monday, Tuesday, Wednesday, Friday, Saturday. Weeknight parties (Mon-Wed) must end no later than 10:00pm, this includes your cleanup time. Weekend parties (Fri-Sat) must end no later than 11:00pm, this includes your cleanup time.

Lifeguards are required for pool parties and must be scheduled through MPM Recreation. You must schedule your parties at least two weeks in advance. A party request can be made through the form on the MPM website (www.mpmrecreation.com) or at the pool.

Please note that the lifeguards are there to ensure your safety; it is your responsibility to clean up.

There is a gas grill and refrigerator which may be used during your party. Your guests may bring flotation devices for use in the pool during your party. You may also use the basketball hoop and/or volleyball net. The guards will remind your guests about any rules that apply to the pool equipment.

Please be sure that your guests follow the HFII Pool Rules and Regulations during your party. Remember that the lifeguards that you have hired for the evening are in control and may, at any time, remind your guests to follow those rules and regulations. Safety is the paramount concern.

Please be sure that you and your guests refrain from bringing any glass containers on the pool deck. If any glass enters the pool, it may require the emptying and refilling of the pool to ensure its removal. This is an expensive and timely process.

The pool manager, lifeguards, and pool committee sincerely hope that you and your guests enjoy your private party. If you have any questions, comments, suggestions, concerns, please contact Karen Colman, pool committee chair.
